

EXPERIENCE

NYC DEVSHOP, NEW YORK, NY JUNE 2014-SEPT 2014

Project Manager, Summer Fellow

- Managed a team of developers and designers on a variety of projects, with scopes ranging from MVP to full redesign and rebuild
- In a three-month period, successfully oversaw the development of nine web and mobile projects across industries including e-commerce, social media, financial services, non-profit, hospitality, and more
- Independently served as primary day-to-day point of contact for clients, developers, designers, business development, and the executive leadership team
- Responsible for the holistic success of each project; created user stories and determined scope, timeline, and required resources in order to successfully deliver projects on time and within budget

GENERAL ASSEMBLY, WDI, NEW YORK, NY JAN 2014-APR 2014

Student

12 week, full-time web development immersive program dedicated to designing and building web applications using test-driven development and Agile methodologies. Proficient in Ruby on Rails, JavaScript, HTML, CSS, and more.

PROJECTS INCLUDED:

- Jsequencer - A music sequencer built in Rails primarily using Javascript, users can select different sounds to create songs, adjust tempo and timing, and save compositions
- On The Side - A restaurant recommendation app based on curated ingredients and side dishes. Built in Ruby on Rails, using Foursquare, Instagram, and Google Static Maps APIs.

EDGE STUDIO, NEW YORK, NY 2009-2014

Lead Engineer/Producer

- Responsible for producing sessions for a wide variety of clients that included Rosetta Stone, Audible.com, Discovery Channel, Aetna, Marvel Comics, and more
- Managed teams of multiple engineers and talent (via Salesforce and Excel)
- Worked with clients on a daily basis to deliver projects in a variety of formats
- Designed, installed, and maintained equipment across five studios
- Taught monthly classes of up to 30 students in engineering, installation, editing, and mixing

NATIONAL PUBLIC RADIO AND BBC, NEW YORK, NY 2005-2014

Freelance Engineer, NY Bureau

- Responsible for recording, set up, editing and mixing of various segments across many NPR shows including Radiolab, Fresh Air, Planet Money, Morning Edition, All Things Considered, Science Friday, and more
